Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the instant case, as amended, claim 1 recites the following limitation: "Wherein said oriented film has a luminous transmittance of 80%; a surface gloss of 100." The limitations present in this phrase are **new matter**. Applicant is specifically referred to page 4 of the specification, wherein the applicant recites that the luminous transmittance is $\geq 84\%$, and the surface gloss is ≥ 120 . Further, applicants are directed to page 12 of the specification, wherein the applicant recites that the luminous transmittance is **above 80%**, and the gloss is **above 100**. Particular emphasis is put on the term "**above**" as this term specifically excludes "80%" transmittance, and a gloss of "100." There is no support in the specification for the specific end points required by the applicant in claim 1. Thus, these limitations constitute new matter.

Citation of Relevant Prior Art

3. German patent #DE19630599A1 is cited as relevant to the applicants invention, but has not been relied upon at this time. The prior art made of record and not relied

Art Unit: 1773

upon is considered pertinent to applicant's disclosure. This patent discloses a polyethylene terephthalate film similar to applicant's invention, including a film having good optical properties that contains similar or identical UV stabilizers and phosphorous stabilizing compounds as disclosed by the applicant.

Response to Arguments

4. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
